PROFESSIONAL SUMMARY

Proactive Software Test Engineer with 2+ years of experience in manual and automation testing across ERP, eCommerce, and Android applications. Skilled in designing and executing Selenium WebDriver + TestNG automation frameworks, API testing with Postman, and SQL backend validation. Experienced in Agile Scrum, defect lifecycle management, and delivering high-quality software through regression, smoke, and sanity testing. Strong knowledge of STLC/SDLC, with proven ability to reduce regression cycles by building reusable automation scripts. Adept at using GitHub for version control and self-driven in learning JIRA, Cucumber, and CI/CD practices.

TECHNICAL SKILLS

TESTING TYPES: MANUAL TESTING, AUTOMATION TESTING, REGRESSION, RETESTING, SMOKE, SANITY, UI, MOBILE TESTING (ANDROID), CROSS-BROWSER TESTING

TOOLS: POSTMAN, SELENIUM WEBDRIVER, TESTNG, JUNIT, CUCUMBER, ECLIPSE, GITHUB, JIRA

LANGUAGES & DB: JAVA (CORE), SQL (JOINS, DATA VALIDATION)

Process Knowledge: STLC, SDLC, Agile (Scrum), UAT, Defect Lifecycle

PROFESSIONAL EXPERIENCE

POCKETLITE PVT LTD

Associate Software Tester

Feb 2024 - Present | Bengaluru

- Designed and executed automation test scripts using Selenium WebDriver, Java, and TestNG, covering login, forgot password, and core ERP workflows.
- Built reusable automation components with Page Object Model (POM) for maintainable scripts.
- Automated API validation using Postman + SQL DB checks, ensuring accurate data synchronization.
- Implemented cross-browser automation tests (Chrome, Edge) to validate compatibility.
- Integrated test automation scripts with GitHub for version control and CI/CD readiness.
- Created regression automation suite reducing test cycle time by 30%.
- Performed manual testing (sanity, smoke, regression) for ERP and eCommerce modules.
- Participated in Agile ceremonies (daily stand-ups, sprint planning) and defect triage meetings.

VSJ INFOTECH PVT LTD

Software Test Engineer

Sep 2023 – Jan 2024 | Chennai

- Conducted functional and regression testing on MLM and Matrimonial platforms.
- Validated referral workflows, matchmaking features, and UI responsiveness.
- Collaborated with developers for defect resolution and retesting.
- Supported UAT efforts by identifying early issues.

Inmakes Infotech Pvt Ltd

Software Test Engineer Intern

Feb 2023 – Jun 2023 | Kochi

- Practiced Selenium automation for eCommerce site flows (login, cart, checkout).
- Executed test cases using TestNG and maintained code in GitHub.
- Logged defects and discussed findings in QA meetings.

PROJECT

ERP & eCommerce Application Testing - Web & Mobile

- Automated business flows using Selenium & Java based on real-time test scenarios.
- Designed Postman collections for API validation and integration checks.
- Verified backend data using SQL queries for data integrity.
- Created modular test scripts with TestNG reports and assertions.
- Practiced defect tracking in JIRA to simulate real-world issue workflows.
- Performed manual testing on real Android devices, ensuring layout and functional correctness.
- Validated API calls from the mobile application using Postman and logged defects with screenshots.

KEY ACHIEVEMENTS

- Reduced regression testing time by 20% by organizing and optimizing test suite execution.
- Logged and managed over 100+ issues with detailed defect lifecycle coverage.
- Created reusable API-DB validation flows, improving defect traceability.
- Prevented production bugs by identifying critical issues during UAT.

STRENGTHS

- Analytical Thinking
- Team Collaboration
- Fast Learner
- Problem-Solving
- Self-Driven Learning (Jmeter and Appium)
